

Concrete Washout Bags

Heavy-Duty Containment for Concrete Waste Management

Danterr's Concrete Washout Bags offer a durable, compliant solution for concrete waste management. With a waterproof liner and reinforced lifting loops, they ensure safe containment and easy transport. Their 2,500kg capacity helps keep worksites clean and environmentally responsible.

Key Features & Benefits

- ▶ **Heavy-Duty Construction:** Made from durable polypropylene fabric to withstand heavy loads.
- ▶ **Waterproof Inner Liner:** Prevents leaks and environmental contamination.
- ▶ **High Capacity:** Measures 177cm x 107cm x 40cm with a safe working load of 2,500kg.
- ▶ **Easy Handling:** Equipped with four corner lifting loops for safe and efficient transport.
- ▶ **Environmental Compliance:** Ensures proper containment of concrete waste, adhering to environmental regulations.
- ▶ **Versatile Application:** Ideal for civil, road, and commercial construction projects.
