

Star Pickets

Durable & High-Strength Steel for Secure Fencing

Danterr's Star Pickets provide a durable solution for fencing, boundary marking, and securing construction sites. Made from high-strength, rust-resistant steel, they withstand harsh conditions for long-term use. Their pointed ends allow quick and secure installation.

Key Features & Benefits

- ▶ **Heavy-Duty Steel Construction:** Built for long-term durability, with rust and weather resistance to withstand harsh conditions.
- ▶ **Secure & Stable Design:** The three-point star shape enhances soil grip, ensuring strong support for fencing and barriers.
- ▶ **Quick & Easy Installation:** Pointed end allows for effortless ground penetration, saving time on-site.
- ▶ **Versatile Applications:** Ideal for temporary fencing, construction sites, livestock enclosures, and safety barriers.
- ▶ **Compatible with Fencing Accessories:** Works with wire fencing, bunting flagging, and mesh barriers for added functionality.
- ▶ **Meets AU/NZ Safety Standards:** Ensures reliable performance in construction, civil, and agricultural applications.
