

T-Top Traffic Bollards with Base

High-Visibility T-Top Bollards for Worksite Safety

Danterr's T-Top Traffic Bollards with Base provide a durable and highly visible solution for construction sites, helping to mark hazards and control pedestrian flow. Made from UV-resistant plastic with reflective tape, they ensure maximum safety in high-risk work zones.

Key Features & Benefits

- ▶ **High Visibility & Safety:** High-intensity reflective tape ensures visibility in low-light conditions for enhanced safety.
- ▶ **Durable & Weather-Resistant:** Made from UV-resistant plastic to withstand harsh outdoor conditions without cracking or fading.
- ▶ **Removable & Portable:** Lightweight design with a detachable rubber base for easy transport, installation, and storage.
- ▶ **Secure & Stable:** Available in 6kg or 8kg rubber bases, providing enhanced stability on various surfaces.
- ▶ **Versatile & Multi-Purpose:** Ideal for roadworks, construction sites, traffic control, and public events.
- ▶ **Fast & Easy Setup:** T-top handle allows quick connection of barrier tape, mesh, or bunting, enabling quick deployment and repositioning.
- ▶ **OHS Compliant:** Meets Australian workplace and road safety standards.
