

Silt Fence

Reliable Sediment Control for Worksites

Danter's Silt Fence is a high-quality sediment control barrier designed to prevent soil erosion and silt runoff on worksites. Made from UV-stabilized woven geotextile fabric, it effectively traps sediment while allowing water to filter through. Available in 860mm x 50m and 860mm x 100m rolls, it installs quickly with star pickets and tie wire for secure, long-lasting performance.

Key Features & Benefits

- ▶ **Effective Sediment Control** – Prevents soil erosion and captures silt runoff on construction sites.
- ▶ **Allows Water Filtration** – Permeable fabric traps sediment while letting water pass through, reducing environmental impact.
- ▶ **Multiple Size Options** – Available in 860mm x 50m and 860mm x 100m for different site requirements.
- ▶ **Quick & Secure Installation** – Easily supported with star pickets and fastened with tie wire or zip ties for added stability.
- ▶ **Complies with Australian Standards** – Meets erosion and sediment control regulations for worksite compliance.

SPECIFICATIONS:

Product Code	Description
113883	Silt Fence 860mm x 50m
107611	Silt Fence 860mm x 100m
