

# Aardcure ECO

## Eco-Friendly Concrete Curing Compound with Superior Moisture Retention

Aardcure Eco is a high-performance curing compound designed to retain moisture in freshly laid concrete without the use of hydrocarbon resins or mineral spirits. Formulated for both indoor and outdoor applications, it offers a one-coat, odour-free solution that reduces shrinkage, dusting, and the need for traditional water curing.

Tested to retain more than 90% of surface moisture, Aardcure Eco supports green building methods and enhances surface durability, making it ideal for environmentally conscious construction projects.

## Key Features & Benefits

- ▶ Hydrocarbon-free formulation – environmentally friendly.
- ▶ Greater than 90% moisture retention (independently verified).
- ▶ One-coat application – easy and efficient.
- ▶ No odour before or after application.
- ▶ Improves abrasion resistance and surface hardness.
- ▶ Reduces plastic shrinkage and surface dusting.
- ▶ Compatible with aftertrades and surface finishes.
- ▶ Complies with green construction standards.
