

AS3799-Compliant Membrane for Curing, Sealing & Trade-Ready Surface

Aardcure WBS is a high-performance, acrylic modified water-based curing membrane ideal for curing and sealing freshly poured concrete. Engineered to comply with AS3799, it delivers greater than 90% water retention and dries to a clear, non-yellowing finish. Aardcure WBS supports most after-trades and serves as an ideal primer for cementitious toppings, adhesives, and surface coatings.

Formulated with low VOCs and excellent sealing properties, Aardcure WBS provides both initial curing performance and long-term surface compatibility, offering a complete concrete treatment solution for contractors and specifiers.

SPECIFICATIONS:

Product Code	Description	Volume
133080	Aardcure WBS (AC) – 20L	20L
133167	Aardcure WBS (AC) – 200L	200L
133168	Aardcure WBS (AC) – 1000L	1000L
