

Circular Spacers

Full-Circle Accuracy and Support for Reinforcement Placement

Danter's Circular Spacers are made from high-grade plastic and provide consistent 360-degree concrete cover in both vertical and horizontal reinforcement applications. Their twist-resistant sleeve system accommodates a range of bar sizes, while the open-frame design enables unobstructed concrete flow. Ideal for columns, piers, and precast projects, they ensure accurate placement and reliable performance.

Key Features & Benefits

- ▶ Full 360° Cover Accuracy
- ▶ Built-In Sleeves adjust for different bar sizes (8–16mm)
- ▶ Open Construction: Promotes free concrete flow
- ▶ Twist-Free Fit: Holds position during placement
- ▶ Ideal for Vertical Use: Rotates with formwork alignment
- ▶ UV-Stabilised Grey Plastic: Durable and non-corrosive
- ▶ Suitable for Precast, Civil, and Commercial Projects

SPECIFICATIONS:

Stock Code	Description	Pack Qty
127136	Chairs Circular Spacer 15mm 8–12mm	100
107855	Chairs Circular Spacer 20mm 8–12mm	100
108373	Chairs Circular Spacer 25mm 8–12mm	100
119361	Chairs Circular Spacer 65mm 8–12mm	100
107797	Chairs Circular Spacer 75mm 8–12mm	100
121926	Chairs Circular Spacer 30mm 8–16mm	100
121927	Chairs Circular Spacer 40mm 8–16mm	100
121928	Chairs Circular Spacer 50mm 8–16mm	100
