

Ecotherm

Advanced Thermal Break & Curing Blanket for Concrete Applications

Ecotherm is Danter's signature thermal blanket, purpose-built for high-performance concrete curing. Engineered to maintain optimal hydration temperatures and meet NCC R0.20 thermal break standards. Lightweight, durable, and reusable, Ecotherm supports consistent strength development across a wide range of commercial and infrastructure projects.

SPECIFICATIONS:

Product Code	Description
111063	Insulation Ecotherm Foil Coated 1.35m x 22.25m, 7mm Thick

Key Features & Benefits

- ▶ Meets NCC R0.20 Requirement for thermal break
- ▶ Superior Thermal Retention during concrete curing
- ▶ Double-Sided Reflective Foil for thermal efficiency
- ▶ Extra Heavy Duty Build: Withstands on-site wear and tear
- ▶ Fibre-Free & Non-Allergenic: Safer for installers
- ▶ 150mm Overlap Flap: Enhances coverage and reduces waste
- ▶ Ideal for Thermal Curing: Supports even concrete hydration
