

Combination SOG Bar Chairs

Dual-Height, Rust-Free Spacers for Ground Slab Reinforcement

Combination SOG Bar Chairs are dual-height, non-cliptop plastic spacers designed for reliable reinforcement support in slab-on-ground applications. Built from high-strength recycled plastic, they ensure bar/mesh is held securely in position without penetrating the polymer membrane, and compliant with AS/NZS 2425:2015. These spacers feature a flat base for standard use, while an optional wider base can be attached for additional stability on loose substrates. They are lightweight, rust-proof, stackable, and supplied in clearly labelled.

Key Features & Benefits

- ▶ Dual-Height Support: Two cover heights per chair for flexibility
- ▶ Rust-Free Plastic Construction: Zero corrosion risks
- ▶ Base Plate Compatibility: Optional wider base for sand or soft ground
- ▶ Lightweight & Stackable: Easy to handle and transport
- ▶ Membrane Friendly: Won't puncture plastic sheet underlay
- ▶ Ideal for Slab-on-Ground, Pools, and Pod Construction

SPECIFICATIONS:

Product Code	Description
101457	Bar Chairs Combination SOG 25/40 (100Pk)
101458	Bar Chairs Combination SOG 50/65 (100Pk)
101460	Bar Chairs Combination SOG 75/90 (100Pk)
101462	Bar Chairs Combination SOG 85/100 (100Pk)
101489	Tall Bar Chairs Combination SOG 105/110 (100Pk)
105033	Tall Bar Chairs Combination SOG 115/120 (100Pk)
107386	Tall Bar Chairs Combination SOG 125/130 (100Pk)
107387	Tall Bar Chairs Combination SOG 135/140 (100Pk)
101490	Tall Bar Chairs Combination SOG 145/150 (100Pk)
