

# Pile Cage Wheel – Heavy Duty

## PRODUCT DESCRIPTION

Danterr’s Pile Cage Wheel – Heavy Duty, also referred to as circular pile cage spacers, ensure the precise placement of reinforcing bars during pile construction. Ideal for raked piles and applications where concrete spacers fall short, these heavy duty plastic pile cage wheels feature an innovative ‘Push Fit’ mechanism and integrated ‘Security Clip’ to maintain structural stability through installation.

Manufactured from recycled materials, these wheels meet the AS/NZS 2425:2015 standards, supporting both performance and sustainability objectives on site.

## FEATURES & BENEFITS

- Cover options from 25mm to 100mm
- Push Fit mechanism for effortless, tool-free application
- Suitable for smaller cage diameters
- Environmentally friendly – made from recycled materials
- Compliant with AS/NZS 2425:2015

## APPLICATIONS

- Precast pile cage applications
- Civil infrastructure and high-rise foundations
- Raked pile and vertical pile support
