

# Nitoseal SC800

## High-Performance Silicone Road and Pavement Joint Sealant

Nitoseal SC800 is a one-part, gun-applied silicone rubber joint sealant with Roadseal® technology. Designed for concrete roads, pavements, runways, and bridge decks, it combines high flexibility with excellent adhesion and durability. Its low-modulus formulation accommodates joint movements of up to +100%/-50 %, ensuring long-term sealing performance.

## Key Features & Benefits

- ▶ **Exceptional Flexibility** – Accommodates extreme cyclic joint movements.
- ▶ **Fast Rate of Cure** – Reduces downtime and accelerates project completion.
- ▶ **Durable & Long-Lasting** – Resistant to UV, ozone, and harsh weather.
- ▶ **Strong Adhesion** – Excellent bond to clean, dry concrete.
- ▶ **Chemical Resistance** – Withstands dilute acids, alkalis, Skydrol, and jet fuel spills.
- ▶ **Contractor-Friendly** – Ready to use, one-part application with no mixing.
- ▶ **Bulk Application** – Suitable for air-powered pump dispensing on large projects.
- ▶ **Proven Compliance** – Meets ASTM D5893 Type NS and NSW RMS standards.

## SPECIFICATIONS:

Product Code	Description
119875	Nitoseal SC800 Sealant 600ml
122098	Nitoseal SC800 Sealant 20L
134578	Nitoseal SC800 Sealant 200L
