

# Sikaflex® PRO

## Durable Polyurethane Joint Sealant for Concrete and Masonry

Sikaflex® PRO is a one-component, polyurethane joint sealant that cures with atmospheric moisture to form a durable, elastic seal. Specially formulated for movement and connection joints in concrete, masonry, and porous substrates, it combines high elasticity, strong adhesion, and long-term resistance to weathering.

## SPECIFICATIONS:

Product Code	Description
126988	Sikaflex Pro Dark Grey 600ml
102021	Sikaflex Pro Grey 600ml

## Key Features & Benefits

- ▶ **Movement Capability ±25%** – suitable for expansion and connection joints.
- ▶ **Excellent Adhesion** – bonds to concrete, masonry, and porous substrates.
- ▶ **Durability** – resistant to weathering, UV, and ageing.
- ▶ **Elastic Recovery ~90%** – maintains performance under cyclic movement.
- ▶ **Workability** – smooth application and tooling.
- ▶ **Sustainability** – LEED EQc 4.1 compliant; VOC content <40 g/L.
- ▶ **Standards Approved** – ISO 11600 F 25 LM, ASTM C920 Class 25, AS/NZS 4020:2018 potable water approved.
