

# Starbars™ GFRP Mesh

## Reliable GFRP Mesh for Durable, Corrosion-Free Concrete Reinforcement

Starbars™ GFRP Mesh is a pre-formed fibreglass mesh for concrete, manufactured from glass fibre reinforced polymer to provide durable, corrosion-free reinforcing mesh concrete. Supplied by Danterr and manufactured in accordance with ASTM D7957/D7957M-22, a recognised U.S. standard, the mesh delivers high tensile strength, lightweight handling, and long-term performance in aggressive environments.

## Key Features & Benefits

- ▶ **Corrosion-Free** - Will not rust, ideal for marine and aggressive environments.
- ▶ **Lightweight** - Easier to handle than steel mesh, improving site safety and efficiency.
- ▶ **Effective Reinforcement** - Provides reliable load distribution and crack control in concrete.
- ▶ **Non-Conductive** - Suitable for non-magnetic and electromagnetic-sensitive applications.
- ▶ **Sustainable Choice** - Supports longer service life and reduced whole-of-life impact.

## SPECIFICATIONS:

Product Code	Description
136365	Fibreglass Mesh SL72 2400mm x 5800mm
136392	Fibreglass Mesh SL82 2400mm x 5800mm
136911	Fibreglass Mesh SL92 2400mm x 5800mm
136362	Fibreglass Mesh SL81 2400mm x 5800mm
