

# Futureflex™ Sheets

## Durable Polyethylene Expansion Joint Sheet for Superior Flexibility

Durable Polyethylene Expansion Joint Sheet for Superior Flexibility Danter's Futureflex™ Sheets are engineered from cross-linked, closed-cell polyethylene to provide unmatched durability in concrete construction. These sheets offer exceptional resistance to water, chemicals, and temperature extremes, making them ideal for applications such as runways, bridges, tunnels, and industrial floors.

## Key Features & Benefits

- ▶ **Waterproof & Non-Absorbent:** Maintains structural integrity in wet environments.
- ▶ **Rot & Chemical Resistant:** Withstand exposure to acids, alkalis, and salt
- ▶ **Thermal Resilience:** Performs in -50°C to +80°C temperatures
- ▶ **Easy Zip Edge:** 10mm perforated edge simplifies sealant preparation
- ▶ **Flexible & Strong:** Recovers shape after compression
- ▶ **Environmentally Stable:** Excellent ozone and weather resistance
- ▶ **Compliance Assured:** Meets AU/NZ construction standards

## SPECIFICATIONS:

Code	Product Description	Pack Qty.
112794	FutureFlex™ PE100 2000mm x 1000mm x 10mm	5
115165	FutureFlex™ PE100 2000mm x 1000mm x 15mm	4
106514	FutureFlex™ PE100 2000mm x 1000mm x 20mm	2
115162	FutureFlex™ PE70 2000mm x 1000mm x 10mm	4
115163	FutureFlex™ PE70 2000mm x 1000mm x 15mm	2
115164	FutureFlex™ PE70 2000mm x 1000mm x 20mm	2
104794	FutureFlex™ PE30 2400mm x 1200mm x 10mm	10
112964	FutureFlex™ PE30 2400mm x 1200mm x 15mm	6
106793	FutureFlex™ PE30 2400mm x 1200mm x 20mm	5
106148	FutureFlex™ PE30 Adhesive 2400mm x 1200mm x 10mm	10
105850	FutureFlex™ PE30 Adhesive 2400mm x 1200mm x 15mm	6
106277	FutureFlex™ PE30 Adhesive 2400mm x 1200mm x 20mm	5
