

Vectorfill™

Vectorfill™ – The Industry Standard Expansion Joint Filler

Vectorfill™ is a premium bitumen impregnated fibreboard, engineered as a high-performance expansion joint filler for concrete structures. Manufactured using a patented process that saturates cellular fibres with bitumen, Vectorfill™ ensures non-bleeding, non-extruding performance while maintaining exceptional flexibility.

Proven in the field for over 70 years, this lightweight yet durable concrete expansion joint filler has become the benchmark for infrastructure and building projects across Australia.

Key Features & Benefits

- ▶ **Extreme Durability:** Long-lasting performance in heavy-duty applications.
- ▶ **Ageing Resistance:** Retains strength and flexibility under harsh conditions.
- ▶ **Non-Bleeding & Non-Extruding:** Maintains structure under compression.
- ▶ **Lightweight:** Easy to transport, cut, and install. Customisable: Available in various thicknesses and sizes to suit project needs.
- ▶ **Compliance:** Conforms to ASTM, AASHTO, FAA, Corps of Engineers, and AU/NZ standards.
- ▶ **Versatility:** Perfect for bridges, pavements, buildings, airports, tunnels, and other critical infrastructure.

SPECIFICATIONS:

Stock Code	Description	Pallet Qty
121000	Bitumen Impregnated Fibreboard 2440mm x 60mm x 9.50mm	500
114731	Bitumen Impregnated Fibreboard 2440mm x 75mm x 9.50mm	700
108026	Bitumen Impregnated Fibreboard 2440mm x 100mm x 9.50mm	600
107868	Bitumen Impregnated Fibreboard 2440mm x 125mm x 9.50mm	450
106141	Bitumen Impregnated Fibreboard 2440mm x 150mm x 9.50mm	400
108027	Bitumen Impregnated Fibreboard 2440mm x 200mm x 9.50mm	300
108091	Bitumen Impregnated Fibreboard 2440mm x 300mm x 9.50mm	200
107081	Bitumen Impregnated Fibreboard 2440mm x 900mm x 9.5mm	115
109335	Bitumen Impregnated Fibreboard 2440mm x 1200mm x 9.5mm	115
127085	Bitumen Impregnated Fibreboard 2200mm x 1200mm x 12mm	93
