VoidX™ Polystyrene Sheets

High-Performance Thermal Insulation for Industrial Construction

Danterr's VoidX™ Polystyrene Sheets are lightweight, durable expanded polystyrene (EPS) boards designed for thermal insulation in commercial and industrial construction. Manufactured in Australia from H-Grade polystyrene foam, these sheets provide reliable strength, moisture resistance and dimensional stability. Tested to relevant Australian Standards, they deliver effective thermal insulation while ensuring easy handling and efficient installation across a range of building applications.

Key Features & Benefits

- **H-Grade Strength** – Provides reliable compressive strength for demanding applications.
- **Effective Thermal Insulation** – Reduces heat transfer for improved energy efficiency.
- **Lightweight Design** – Easy to cut, handle and install on site.
- **Moisture Resistant** – Low water absorption supports lasting insulation performance.
- **Versatile Applications** – Suitable for walls, floors and other insulation requirements.
- **Standards Compliant** – Manufactured to meet AS 1366.3:1992 requirements.
- **Recyclable Material** – EPS can be recycled through suitable facilities.

SPECIFICATIONS:

Product Code	Description
109960	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 10mm Thick
112795	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 15mm Thick
110041	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 20mm Thick
110335	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 25mm Thick
110708	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 30mm Thick
118720	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 40mm Thick
108576	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 50mm Thick
118488	VoidX™ Polystyrene Sheet H 2400mm x 1200mm x 100mm Thick
